

Speaker Lineup Set for NaplesNEXT State of the Community Summit

Local, state and national leaders evaluate the landscape of childhood welfare in Collier County and beyond as part of 2020 NaplesNEXT Ideas Festival

NAPLES, Fla (Dec. 17, 2019) – Influential national and community leaders, including elected officials, philanthropists, doctors and law enforcement personnel, will be among the featured speakers at the NaplesNEXT Ideas Festival *State of the Community Summit*. The program, hosted in partnership with the Naples Children & Education Foundation (NCEF), founders of the Naples Winter Wine Festival, takes place the morning of March 3, 2020, at the Naples Grande Beach Resort.

Serving as the second day of programming for the two-day NaplesNEXT Ideas Festival, the *State of the Community Summit* will focus on three important topics of children’s services in Collier County: Child Advocacy, Early Learning and Education, and Pediatric Healthcare. Since its inception in 2000, NCEF has impacted more than 45 of the most effective nonprofits in the community, providing 275,000 children in Collier County with the services and resources they need to excel.

“As we celebrate our 20th anniversary, NCEF is delighted to have this opportunity to share our experiences and those from many of our partners in these three children’s service areas and their impact on the educational, emotional and health outcomes of underprivileged and at-risk children in Collier County,” said NCEF CEO Maria Jimenez-Lara. “This fantastic speaker lineup will reinforce the importance of what we do as an organization every day. Their collective experience in these important areas will provide valuable takeaways for members of our community.”

“We are excited to welcome thought leaders from prestigious national and regional organizations to share their viewpoints on the current landscape of child wellbeing,” said Stacey Vollman Warwick, executive director of NaplesNEXT. “It’s important that we discuss the current challenges our children face today, shine a light on the changes that have positively influenced our children, and share how our actions today can position our children for future success.”
